

# Hume Lake Zipper Fly

by Ken Stout

## Materials:

8/0 or 6/0 Thread Wapsi Ultra

Hook: Tiemco 3769 #10-14

Gold Bead appropriate for hook

.020 Lead Wire

Tail: Marabou Plume

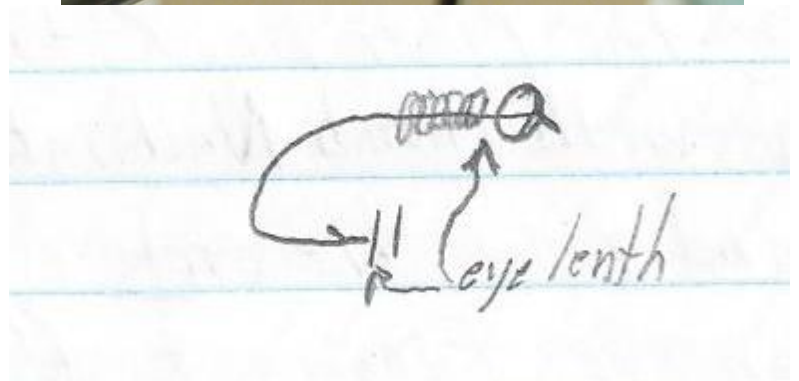

Wire: Small

Large Flashabou

Step 1. Place gold bead on to hook.

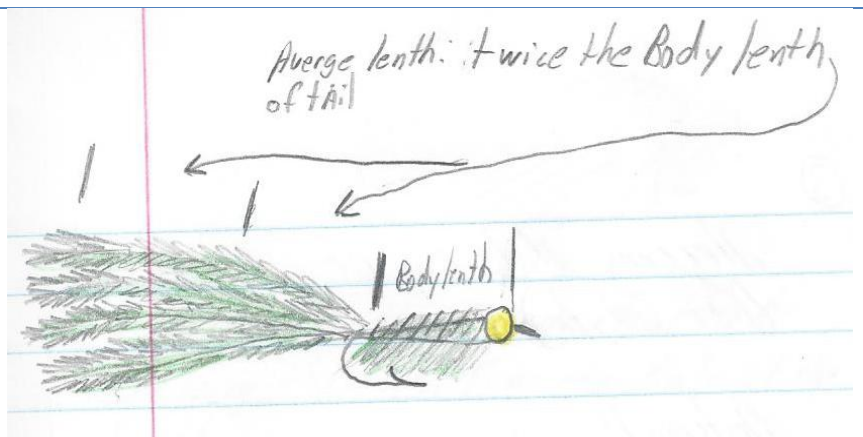

Starting one eye's length behind the eye wrap led wire back to right over the point, securing the led with thread.

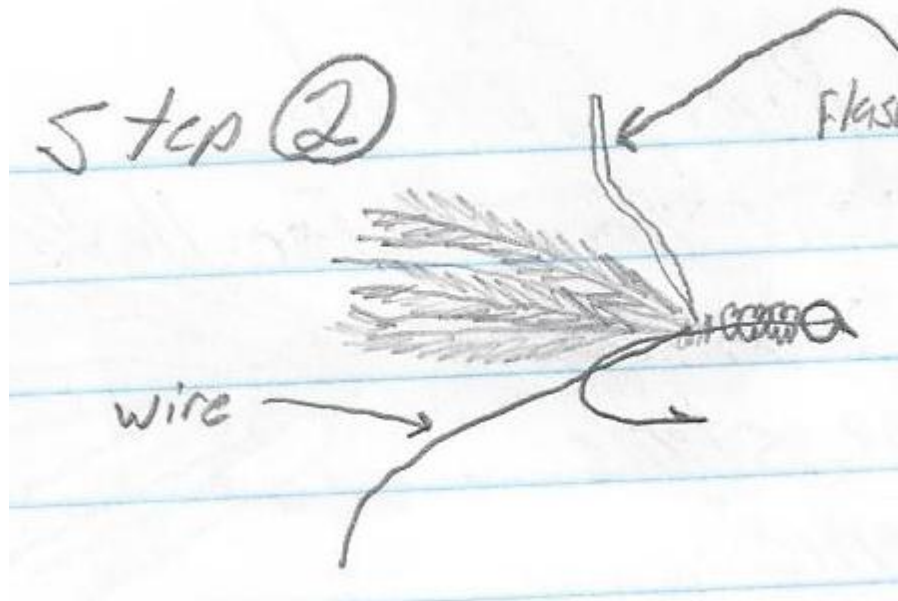

Step 1a. Tear some marabou from stem, enough for two lengths of the hook.

Trim butts of Marabou attach it behind lead secure Marabou down stopping right behind eye.

Post the tail.

Step 2. Attach wire on top of lead.  
Attach flashabou on top of hook.  
Attach crystal flash.

Step 3. Wrap crystal flash up to bead.  
Pull down flashabou over top of crystal flash, secure behind bead.  
Counter rotate wire over top of crystal flash and flashabou, secure it behind bead.  
Then whip finish.  
Done.
