

Fiery Female Adams

Rev 20150203

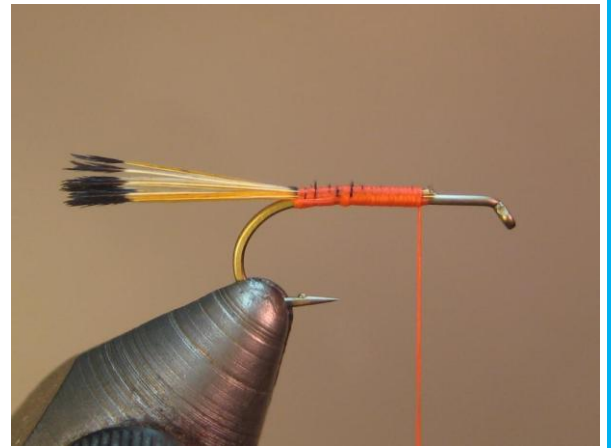

Materials Needed:

Hook – TMC 100 dry fly hook #12-18
Thread - 8/0 Fluoro Fire Orange
Tail - Golden pheasant tippets
Abdomen/head - tying thread
Thorax – muskrat or Adams Gray Dubbing
Wing – White Antron or Calf Tail
Hackle - grizzly/brown

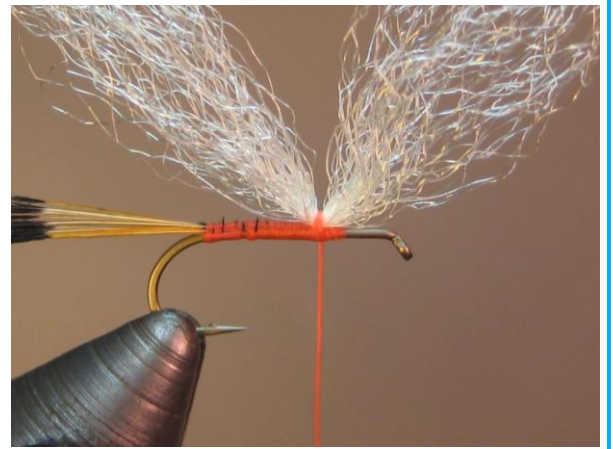

Start thread at 2/3 mark, wrap back to point above barb and make a little bump.

Measure a clump of Golden pheasant tippets (shank length); tie in/trim butts.

Tie in a hank of wing material.

Post it.

Tie in hackles.

Build up abdomen (back 1/4 of shank).

Dub thread, dub thorax (middle 1/2 of shank).

Wind hackle down post.

Tie off at base of post.

Trim hackle/trim wing; build up head (front 1/4 of shank).

Whip finish.
